

Hallwise is a digital hall pass that uses your Google Classroom rosters. Students tap their name on a shared Chromebook by the door — or on their own Chromebook, if you post the link in Google Classroom. Students never sign in and there is no app to install. Setup takes under 5 minutes and needs no help from IT.

PRICING

\$999 per year — one flat price for your whole school

Any school size. If your enrollment changes, your price does not. Unlimited teachers and unlimited passes.

Free to try for 60 days, with every feature turned on.

WHAT AN 800-STUDENT SCHOOL PAYS PER YEAR

Hallwise	\$999 / yr	Flat fee — any school size
SmartPass	\$2,000–\$4,000 / yr	Per student (\$2.50–\$5 per student)
e-hallpass (now Securly Pass)	\$2,400–\$4,000 / yr	Per student, plus \$1,000 setup

WHAT YOU GET

- Your Google Classroom rosters sync automatically
- Students never need a login
- Set up in under 5 minutes, with no help from IT
- A live screen showing who is out, across the school
- Stop two students being out at the same time
- Lockdown mode — block every pass instantly
- Limit how many students can be out at once
- See which students are out most often
- Export everything to Excel
- Unlimited teachers and unlimited passes
- Add your own places — rooms, bathrooms, staff
- Every feature during the 60-day trial

WHAT HALLWISE DOES NOT DO

Hallwise is a hall pass, not a whole campus system. If you need any of these, SmartPass or e-hallpass may suit you better:

- No phone app — it runs in a web browser
- No link to PowerSchool, Clever or other student systems
- No scheduling for flex periods or activities
- No dedicated account manager

STUDENT DATA AND PRIVACY

- We never sell student data, and we never show ads.
- We use student data only to run the hall pass.
- We follow FERPA.
- If you cancel, we delete student data within 30 days (backups within 90 days).
- We will sign a data privacy agreement (NDPA framework).

Where your data lives: your data is stored with Supabase (SOC 2 Type II and ISO 27001:2022 certified, on AWS in the US) and served through Vercel (SOC 2 Type II, ISO 27001:2022). We read only your Google Classroom courses and rosters — nothing else. Payments go through Stripe (PCI DSS Level 1), which never receives student data.

Try it free for 60 days at hallwise.com — just sign in with your school Google account.
